change the routing so as to carry the train direct from Memphis to Forrest City.

The govelment's routing prepared in Washington without consulting local authorities, the readway men say, is not a popular road. Plans are now for the convoy to make the circuitous route from Memphis to Fogset City, instead of the direct route over the better road.

The government troop train, consisting of 50 trucks, 40 automobiles, 155 soldiers and about 2 sofficers, is scheduled to reach Memphis out of Washington on July 14. The rtain will enter Memphis from Missiasippi and citizens there are divided over the government's routing. The convoy is en route to San Diego, Cal., as a test of the nation's highways in 5the event removal of an army via trucks should be necessary. The Bankhead highway is being used a majority of the distance.
